Local Nonprofit Organizations

DIY PROJECT

Create Your Own DIY Project

IMPACT

Most nonprofits depend on the generosity of the local community to fund their mission and to go further faster. Help a nonprofit organization that you're passionate about by reaching out to them directly and working to solve their greatest need.

INSTRUCTIONS

STEP 1: As a group, spend time brainstorming local nonprofit organizations that you're passionate about. Decide on one nonprofit you would like to serve.

STEP 2: Contact the nonprofit and spend some time talking to a staff member about the organization's greatest need and how your group can help.

STEP 3: Discuss as a group how you will execute your project.

STEP 4: As you complete your project, spend some time praying for the individuals that the nonprofit serves.

STEP 5: Register your project [here](#) so we can keep track of what's happening in our community!

INCLUDE YOUR KIDS

Ask the nonprofit if children can serve with you. If applicable, kids can also go with you to deliver your items. Please use your visit as a teachable moment and set expectations on the front end by talking about what they might experience and reminding them to love and treat others as they wish to be treated (such as making eye contact, smiling, and being respectful to everyone).
